

Pranahitha

100%  
Natural

Chemical  
Free

1000<sup>+</sup>  
Customers

Pranahitha products make **100% natural**, chemical-free cleaners and no added synthetic ingredients or preservatives.

## How we Prepare?

The liquids are made with **0% electricity**.

All our liquid cleaners are made with **citrus bioenzymes and soapnuts and pure essential oils**.

All the enzymes are handcrafted keeping in mind that the products are safe for kids, pets and earth in all ways.

Our products require **less water** while cleaning.

The water used for cleaning can be **reused for watering plants or outdoor cleaning** and cleaners are compostable as our products are completely made of ingredients available in their raw origin form.

All the cleaners when **flushed** down the drain line helps cleaning the **drain line**. The water when diverted to soil **rejuvenates** the soil.

With natural cleaners, we can improve the life force in our living spaces alongside eliminating the harmful microbes and contributes to eco-system regeneration and sustainable living.

## Packaging

All our liquid cleaners are stored in repurposed or upcycled water bottles.

We collect the bottles and sterilize for our products bottling. Using old repurposed bottle can avoid lots of electricity usage and raw material for production of new plastic bottle and here by we avoid new plastic to run through the cycle.

We **reuse** cartons which are done with their first usage for packaging to **minimise waste** and **maximize resources efficiency**.

All our dry products are packed in **paper packaging**.

### All our Products are:

- Natural
- Eco -Friendly
- Hand Crafted
- Zero Waste
- Sustainable
- Chemical Free
- Biodegradable
- Compostable

## Recycling at our unit

We segregate the waste in our vicinity to get them processed properly without getting dumped in mixed waste.

+  
10,000  
Bottles

We have prevented  
10,000+ bottles from  
ending up in Landfills.
